BUREAU OF CENSUS AND STATISTICS, BRISBANE

BULLETIN NO. 67 OF 1970

To be treated as strictly CONFIDENTIAL and NOT to be published, broadcast, or cabled before 6 p.m. on Wednesday, 28 October 1970

RETAIL PRICES, SEPTEMBER QUARTER 1970

Introduction

The Consumer Price Index measures quarterly, for each State Capital, the variations in prices of commodities and services which affect a high proportion of the expenditure of wage-earner households. Commodities and services included in the index are food, clothing, drapery, home ownership, rent of houses and flats, fuel, light, furniture, household appliances and supplies, fares, motoring, tobacco, cigarettes, beer, cinema, radio and television licences, newspapers, postal and telephone services, hairdressing, dry cleaning, medical and health services, and various other items.

The various commodities and services have been combined into groups, and group indexes are available for Food, Clothing and Drapery, Housing, Household Supplies and Equipment, and Miscellaneous.

The indexes measure price movements in each city individually. They do not provide a comparison of the retail price level in any city with the retail price level of any other city. The base of the index for each city and for the weighted average, six State Capitals, is 1966-67 = 100.0.

September Quarter 1970

There was an increase of 1.3 per cent in the Brisbane Consumer Price Index from June quarter 1970 to September quarter 1970, the index number for All Groups rising from 109.7 to 111.1. For the twelve months ended September 1970 the All Groups increase was 3.6 per cent.

From June quarter 1970 to September quarter 1970 the Consumer Price Index increased in all State Capitals except Adelaide. Percentage increases were as follows: Brisbane, 1.3; Sydney, 0.9; Melbourne and Hobart, 0.5; and Perth, 0.2. Adelaide recorded a decrease of 0.1 per cent.

Since the base year, 1966-67, the rise in the retail price level has been greatest in Sydney and smallest in Adelaide. Percentage increases for the various State Capitals from 1966-67 to September quarter 1970 were as follows: Sydney, 13.9; Perth, 11.6; Brisbane, 11.1; Melbourne, 10.7; Hobart, 10.2; and Adelaide, 9.9. The rise in the weighted average for the six State Capitals was 11.9 per cent. (It should be noted that these figures merely indicate rates of price rises in separate cities and do not represent in any way the relativities of actual price levels in the different cities.)

A brief outline of the movements of the various group indexes for Brisbane between June quarter 1970 and September quarter 1970 is given below.

Food Group

The Food Group index increased from 109.1 to 110.5, a rise during the quarter of 1.3 per cent. The main price increases recorded were for potatoes and beef, while a decrease was recorded for eggs.

Clothing and Drapery Group

Increases in the prices of menswear and footwear were chiefly responsible for the rise of 0.4 per cent in the Clothing and Drapery Group, the index rising from 108.8 to 109.2.

### Housing Group

The Housing Group index increased by 1.6 per cent, from 114.1 to 115.9. Increases occurred mainly in Local Authority rates and charges, and in costs of repairs and maintenance.

### Household Supplies and Equipment Group

The Household Supplies and Equipment Group index increased by 0.6 per cent, from 105.9 to 106.5, because of minor price changes of items in the group.

### Miscellaneous Group

The Miscellaneous Group index rose from 110.7 to 112.9, an increase of 2.0 per cent. The rise was chiefly attributable to increases in bus fares. A decrease occurred in health services, due to the lower net price payable by households for medical services following increases in the amounts of Commonwealth medical benefits.

Table 2 - Consumer Price Index: State Capital Cities  
(1966-67 = 100.0 for Each City and for Six State Capitals)

As the base for each city is 100.0, the indexes in the table below do not indicate relative price levels as between cities, but they may be used to compare relative price movements in the various cities.

Period	Sydney	Melbourne	Brisbane	Adelaide	Perth	Hobart	Weighted Average, Six State Capitals
<u>Year</u>							
1960-61 ..	89.6	89.5	87.1	89.8	87.9	90.3	89.2
